

The Freedom Treaty

Given that there is an attempt by the World Health Organization and its private sponsors to take over the sovereign freedom of nation-states to make their own decisions about how to protect their citizens' health;

given that most nation-states in the so-called developed world are under the direct influence and control of an elite cabal of uberwealthy families and individuals, and, as such, not dedicated to uphold the sovereign freedom of the people under their responsibility; and,

given that environmental destruction and most wars on our planet are the direct and indirect result of plans instigated by this elite cabal, a situation that will continue for as long as its members deem them necessary for their own benefit.

hereby commit ourselves to entirely cease and desist from collaborating with the governments of those nation-states and from obeying the dictates of those still in power who are dedicated to further their own self-serving agenda;

hereby vow to no longer fall for the fear tactics and manipulative ploys designed by the members of this elite cabal to maintain us controlled and disempowered, thus freeing ourselves from the sole way they have to maintain what is left of the control grid and mind prison used to keep us under their thumb; and,

hereby declare our sovereign, inviolable freedom to be and become all that we can be and become, once freed from the matrix of illusions weaved through centuries of deception to prevent us from awakening to our true universal cosmic nature.

We are those who, henceforward, will take charge of our own evolution towards establishing a truly benevolent civilization, guided by the sacred principles of Peace, Love and Harmony, for the highest good of all.
